Vaccination Policy

To prevent the spread of disease while your pet is in our care, dogs must be current on rabies, bordetella (*within the last 6 months*) and distemper vaccinations. It is the responsibility of the owner to provide proof of vaccination history from a veterinarian for each animal boarding. To insure the protection of all the pets under our care, the vaccinations listed above must be current **prior** to boarding. Animals whose vaccinations are not current will be examined and vaccinated by Village Veterinary Clinic prior to admittance **at the owner's expense** or they *will not be allowed to board*.

Owner understands that even if Owner's dog(s) is vaccinated against Kennel Cough (Bordetella), there is a chance that the Owner's dog can still contract Kennel Cough or another illness during their stay at VVC (Village Veterinary Clinic). Owner specifically agrees that VVC shall in no way be responsible should owner's dog contract Kennel Cough or another illness while in the care of VVC. _____ (initials)
